Literary Activism-Amit Chaudhuri 2018-02-15
Literary Activism revisits and interrogates, and looks to renew, the force of the literary. It's a movement that emerges from a radically altered landscape for both publishing and academia, where what Amit Chaudhuri calls ‘market activism’ has effected changes – on language, on the measuring of value, on the concept of influence - in ways we struggle to recognise. Encompassing the perspectives of the writer, critic, translator, academic, and publisher, the essays in this volume follow no single line of enquiry. Rather, they offer the beginnings of an analysis of the literary world at a certain moment of globalisation, while also questioning whether a literary world exists and, if it does, where its boundaries lie.
collection moves in many directions – from Arun Kolatkar and his near-heroic refusal of both marketplace and reputation; to Derek Attridge, who argues for a form of affirmative criticism which positions the critic as a ‘lover of the text’; while, from Amsterdam, Dubravka Ugrešić reflects on life in a literary ‘out of nation zone’, adrift in a territory where intellectual protest has been stripped of ideological impetus and subsumed by the voraciousness of the market. Taken together, these essays initiate a series of conversations about who reads what and why, about the practice of writing and criticism at this particular contemporary moment, and about the activities and institutions that shape an understanding of what literature is and what it can do.

Revolution-Jacopo Galimberti 2019-11-18 This is the first book to explore the global influence of Maoism on modern and contemporary art. Featuring eighteen original essays written by established and emerging scholars from around the world, and illustrated with fascinating images not widely known in the west, the volume demonstrates the significance of visuality in understanding the protean nature of this powerful worldwide revolutionary movement. Contributions address regions as diverse as Singapore, Madrid, Lima and Maputo, moving beyond stereotypes and misconceptions of Mao Zedong Thought's influence on art to deliver a survey of the social and political contexts of this international phenomenon. At the same time, the book attends to the similarities and differences between each case study. It demonstrates that the chameleonic appearances of global Maoism deserve a more prominent place in the art history of both the twentieth and twenty-first centuries.
